

Thérèse Murdza: New Works

The Brewhouse Studio and Artworks Consultants cordially invite you to join Portland artist Thérèse Murdza for a special First Thursday event showcasing her latest collection of large, multi-paneled works on canvas and smaller works on canvas and paper. This will be a unique opportunity for guests to interact both with the artist and her inspiring pieces.

A poet turned visual artist, Thérèse began drawing on giant rolls of paper in the late 90's after experiencing a sudden loss of words (creatively speaking), and continued her work onto stretched canvas in 2000. Her early training as a musician has remained a constant influence throughout Thérèse's life and work: "If we could see music, if we could somehow take a picture of the sound, a section of the sound, and turn it sideways, that's what I paint."

We encourage you to come and be inspired, while enjoying some eats and drinks on us.

WHEN:

First Thursday, December 2nd 7:00-10:00pm

WHERE:

GBD Architects
1120 NW Couch Street, Ste 300
Portland, OR 97209

MORE ABOUT THÉRÈSE:

Portland, Oregon-based artist Thérèse Murdza builds bright, richly textured paintings for commercial and residential collections. Using an animated range of colors and a repeated, kinetic rhythm of familiar gestures – circles, rectangles, and lines – she creates large, multi-paneled works on canvas, and smaller works on canvas and paper.

She recently completed a six-piece series of large paintings (60 inches x 372 inches total) for a newly built private residence in Cedar Rapids, IA, and installed a series of multi-paneled paintings for the Mercy Cancer Center and Mercy Medical Center - West Lakes in Des Moines, IA. Her work is held in numerous private and commercial collections across the country including the Wellmark Blue Cross Headquarters in Des Moines, IA; the Duke University-UCLA National Center for Child Traumatic Stress in Durham, NC; and the Mirabella - South Waterfront in Portland, OR.

Thérèse will be the featured artist for Resonance Ensemble's upcoming "Music and Memory" concert, combining music, poetry and art.
